

Features

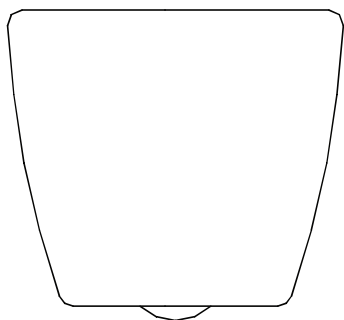

- **Traditional Box Rim Flushing System**
Features a classic box rim design that promotes effective water distribution for robust flushing performance, ensuring thorough cleaning with every flush while maintaining overall hygiene.
- **Water-Saving Dual Flush System (3L/6L)**
Offers an eco-friendly flush option with separate volumes for liquid and solid waste — 3 litres for liquid and 6 litres for solid waste — reducing water consumption without compromising performance.
- **Non-Electric Bidet with Manual Operation**
Integrates a non-electric bidet that delivers a controlled water spray for effective personal hygiene. This design supports energy efficiency and eco-friendly operation while ensuring optimal cleaning performance and user comfort.
- **Space-Saving Wall-Hung Installation**
The wall-mounted design frees up valuable floor space while providing a clean, floating look that is easy to clean and maintain.
- **Complete Installation Kit**
Includes all necessary fixing accessories and adjustable anchoring options for a quick, secure, and hassle-free installation.
- **Durable & Eco-Friendly Construction**
Constructed from high-quality, low-porosity ceramic that is easy to clean with just soap and water, ensuring longevity and promoting sustainable water usage.
